EGYPTIAN AUTOMOTIVE & TRAINING CO.

Testimonial

As our primary provider of translation services, Viewpoint Egypt has continually and consistently provided us with translation into multiple languages for a wide range of documents including technical, marketing, legal, and human resources. In addition, Viewpoint works with us to meet our deadlines. Under tight time constraints and sometimes very short turnaround times, Viewpoint consistently meets our requirements for time without sacrificing quality.

We consider Viewpoint to be our partner in international communication. As our business evolves, so does this relationship. Viewpoint continues to keep pace with our company as well as our industry.

We were amazed at the quality of the translation, but impressed even more so with your service; someone was ready with the right information whenever we needed to contact you, and the turnaround on the project was incredibly fast. Thanks!
